

CT TRAILER SAFETY UPGRADE

C&C Fluid Power is committed to maintaining high safety standards while delivering exceptional equipment.

Based on customer feedback, we have developed additional safety systems for your CT trailers.

Used independently or in conjunction, these new options are available to add to new systems or to retrofit your current systems.

Contact us today to learn more about these systems or to get yours ordered.

SAFETY CAGE

- Contains spool, cable, shafts, and bearings in the event of spool failure.
- Maintains spool clearance.
- Maintains handsfree, self loading capability of trailer (if applicable)

SHEAR SYSTEM

- In the event of down hole failure, system will prevent dangerous movement of trailer.
- Easy to replace shear pin.
- Multiple shear pin sizing options available based on desired line pull.
